

We are thrilled to welcome you and your equine friend to our beautiful
Snowriver Mountain Resort!

To ensure that everyone has a safe and enjoyable experience, please keep the following guidelines in mind during your stay.

All riders must sign liability waiver before riding. A waiver form is attached to your reservation. Please print, sign and submit at check-in. Please provide Coggins test to Front Desk upon check-in (digital or paper copy accepted).

Helmets are highly recommended as terrain can be rough and rocky. RIDE AT YOUR OWN RISK.

Park campers and trailers only in designated areas. Please tie only to your trailer or designated tie areas (do not tie directly to trees).

Please keep your stall/pen/tie area and parking lot areas free from manure, hay and other debris and dispose of it in designated Manure areas only. Please strip your stall or pen of all bedding and manure before you leave. No bedding is provided onsite.

Water is available at stall sites but please bring your own bucket.

Take out everything that you bring with you on your ride. Pack it in, pack it out and leave no trace! Trash dumpsters are available for guest use – please ask at Front Desk.

Stay on the trails – do not create pass arounds. Maps are available at the Front Desk. Avoid muddy trails. If you have to pass through mud, please do so at a walk.

Obey all signage. Do not ride in areas where horses are not allowed.

All camping is “rough camping” (e.g. no electric/water/sewer provided onsite). Due to local regulations, a maximum of 4 individual RV/campers are allowed at a time.

In case of emergency, please dial 911. Cell phone service is spotty along the trail. We recommend carrying radios as alternative communication with your party.
